Protection

Outdoor cycle cover

- protects paintwork against U.V. rays
- water-resistant breathable fabric (allows the bike to dry up while covered)
- rope to tighten the cover to avoid fluttering
- two holes in front lower area for easy introduction of U-lock

| 08P34 BC3 801 |

While efforts are made to ensure specification accuracy, brochures are prepared and printed several months in advance of distribution and consequently cannot always immediately reflect either changes in specification or, in some isolated cases, the provision of a particular feature. Customers are always advised to discuss specification details with the supplying dealer especially if the selection is dependent upon one of the features advertised.
