

Tailor your dreams. At Honda we have an obsession to not only design and build the finest range of motorcycles to suit an individual's style and requirements, but also to ensure those who choose to ride a Honda get full enjoyment from their machine and their two wheels' experience. That's why we have created a wide choice of Honda Genuine Accessories to extend your riding pleasure. All have been specifically designed, built and tested to the same rigorous standards as your motorcycle or scooter. With Honda Genuine Accessories you can enjoy the benefits of exact factory specifications ensuring a precise fit, superior function and integrated design. Honda Genuine Accessories and Honda Genuine Parts for the ultimate performance.

To assist you with your choice of Honda Genuine Accessories, for ease of reference the contents of this catalogue have been divided. First you will find generic items which are not model specific and can be used with many models from the Honda range. Next are colour coded range sectors where each model and the specific Honda Genuine Accessories available are featured. For additional information visit your local Honda dealer who will be able to provide advice and answer any questions you might have.

Honda Scooter Blanket

Arrive looking as smart as you did when you left home. This waterproof, water-repellant scooter blanket has an insulated lining for warmth, and a chest cover for additional protection in heavy rain. Easy installation – no straps, no Velcro, no tape. Fits perfectly into top box or under seat when not in use.

Features

Weatherproof

- Constructed from water-repellent fabric
- Water-repellent zips
- Insulated lining for extra warmth
- Includes a chest cover for additional protection in heavy rain
- Includes a seat cover to keep the seat dry when the scooter is parked

Safe

- Not attached to the scooter to ensure safety
- Uses reflective materials for extra visibility
- Leaves feet free to move when riding in dense traffic
- Maintains its form at high speed

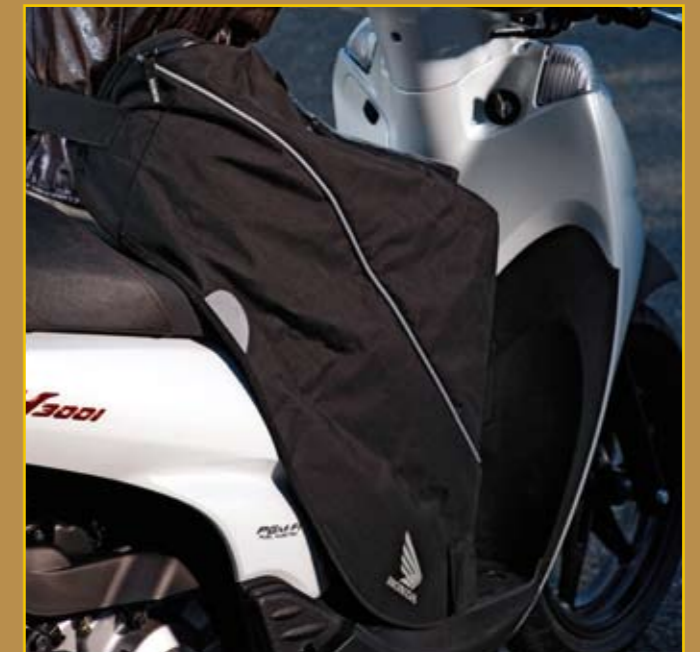

Convenient

- Easy installation – no straps, no Velcro, no tape
- Side buckle makes it easy to attach around the waist
- Buckles under the seat to deter theft when parked
- Features metal rings on the side to further secure the blanket
- Fits perfectly into top box or under seat when not in use
- Features a transparent pocket for handy access to those essentials such as a map, mobile phone or wallet

Honda Genuine

- Premium quality materials and fabrics
- Tailored to fit
- Large (L) and Extra Large (XL) versions available
- Features Honda Wing logo
- Honda Genuine Accessories guarantee applies

Honda Heated Grip Kits

Out on the road you can face driving wind and torrential rain – with everything in-between. At Honda Access we know that being comfortable can make the difference between a pleasurable ride out and a painful ride home.

Even in the most demanding conditions, the Honda heated grips will keep your fingers from going numb, allowing you to keep full control over your bike. Its 5 variable heat levels offer the comfort you require, while the compact handlebar controller can be easily manipulated even with your gloves on. Your ride will no longer be dictated by the elements.

Heat at your fingertips

Easily installed

Honda heated grips can be fitted quickly and easily to almost all Honda motorcycles and scooters to provide warmth in the city or on the open road.

Enhanced energy efficiency and heat generation

The Honda heated grips' innovative design limits the heat loss to a minimum. The stainless steel heating elements ensure optimum heat generation allowing you to enjoy your ride.

Improved 'wraparound' connection

The new design with improved 'wraparound' connection between the heating elements and the wiring ensures reliability. The heated grips can easily stand heavy-duty use.

New improved controller

The new improved controller can be easily operated, even when you are wearing gloves. The controller also includes a handy and highly visible heat level indicator, so you can check the status of the heated grips at a glance.

Battery protection

The new LED indicator with voltage monitoring function and battery protection mode prevents the heated grips from draining the battery. The battery protection mode is active when the LED lights blink simultaneously.

Heat whenever, wherever

Temperatures can change quickly. The 5 stage sequential control, conveniently mounted on the handle bars, allows you to regulate the temperature for every ride. Regardless of the conditions, a winter or a chilly summer morning ride, you can always enjoy the perfect temperature.

Comfort on the move

- 5 step adjustable heating levels
- New LED indicator with voltage monitoring function to prevent the heated grips from draining the battery
- New improved controller, which can be easily operated with gloves
- Improved 'wraparound' connection between heating elements and wiring
- Improved energy efficiency and heat generation

Grip heater kit

- stepless heating adjustment
- integrated circuit to protect the battery from draining

Pro Honda Handgrip cement

08CRD HGC 20G | RRP £12.50

- special heat-resistant glue for heated grips

NEW for 2010 Grip heater kit for VFR1200F

Honda Battery Charger / Optimiser

At Honda we know that taking care of your starter battery is essential to ensure it stays fully charged during periods of non-use. The Honda OptiMate 3 Battery is the answer. It's specially designed for modern batteries from 2 to 32 Amp-hours capacity with the ability to diagnose, charge, check and maintain your battery automatically for months. All major battery manufacturers recommend maintaining starter batteries.

Included with the Honda OptiMate 3 Battery Optimiser are two interchangeable connection harnesses, one with clamps for bench charging, and the other for permanent connection to the motorcycle's battery to allow easy reconnection of charger when necessary.

Honda AccuMate | 08M51 KAZ 800W Honda Testmate mini | 08M51 EWA 800ZA
