Working in partnership with

Your Honda Dealer:

These specification details do not apply to any particular product which is supplied or offered for sale. Manufacturers reserve the right to vary their specifications, including colours, with or without notice and at such times in such manner as they think fit. Major as well as minor changes may be involved. Every effort, however, is made to ensure the accuracy of the particulars contained in this brochure. This publication shall not constitute in any circumstances whatsoever an offer by the Company to any person. All sales are made by the Distributor or Dealer concerned subject to and with the benefit of the standard Conditions of Sale and Warranty given by the Distributor or Dealer, copies of which may be obtained from him on request. Whilst efforts are made to ensure specification accuracy, brochures are prepared and printed several months in advance of distribution and consequently cannot always immediately reflect either changes in specification or in some isolated cases the provision of particular feature. Customers are always advised to discuss the specification details with the supplying Dealer especially if your selection is dependent upon one of the features advertised.

Forever Powered By Dreams

At Honda, we're driven by the Power of Dreams. It encourages us to challenge convention and to think in new ways. That's why our motorcycles, cars, ATVs, marine engines and power equipment products are winning acclaim the world over. Honda is leading the way in engine technology and product innovation, and is all set to revolutionise the jet sector. Then again, wouldn't you expect that from the world's largest engine manufacturer and the number one in motorcycles, respected for its engineering excellence and renowned 'Honda' performance.

Explore Your World in Style

HONDA

Honda and the world of racing. It's the test-bed that enables us to push the limits of performance for the Honda technologies of the future.

ASIMO. Our revolutionary humanoid robot that can run, walk up and down stairs, and even play football, borne out of our pioneering research to give all our products a more human dimension.

Taking to the road on two wheels knowing that nothing can stand in your way is the unique thrill of motorcycling. Fusing comfort, style and practicality, Honda's extensive range of scooters take you wherever, whenever, with the greatest of ease. Blending Honda's technical innovations to make your ride faster and safer, futuristic design to make your journey more comfortable and a level of reliability unparalleled on the road, every Honda Scooter helps you live the life you want on your terms. From carving across busy cities to make that all-important meeting, to meeting friends at the weekend, there is a Honda Scooter for every side of your life.

The Luxurious All-Rounder

Stylishly at home in the bustle of unrelenting city traffic, and eager for the open road, the Silver Wing ABS is eager to explore.

Combining the soul of a tourer with the body of a sleek, agile city commuter, the Silver Wing ABS provides a luxurious alternative for weekday commuting and a refreshing option for a weekend getaway. Boasting a responsive DOHC parallel twin 600cm³ engine with Honda's famed PGM-FI fuel injection system, lightweight design based on a centre backbone steel tube frame, and the assured stopping power of Honda's Antilock Braking System, the Silver Wing ABS gives you the confidence and poise to traverse the city and the power to ride across country in style. Get on, open the throttle and you can't but be in awe of this impressive beauty.

The beautifully designed instrument panel features a full complement of dials and indicators to keep track of all the required parameters.

The front cowl incorporates a distinctive 'piggyback'-style dual multi-reflector headlight, which offers ample illumination to safely drive into the night.

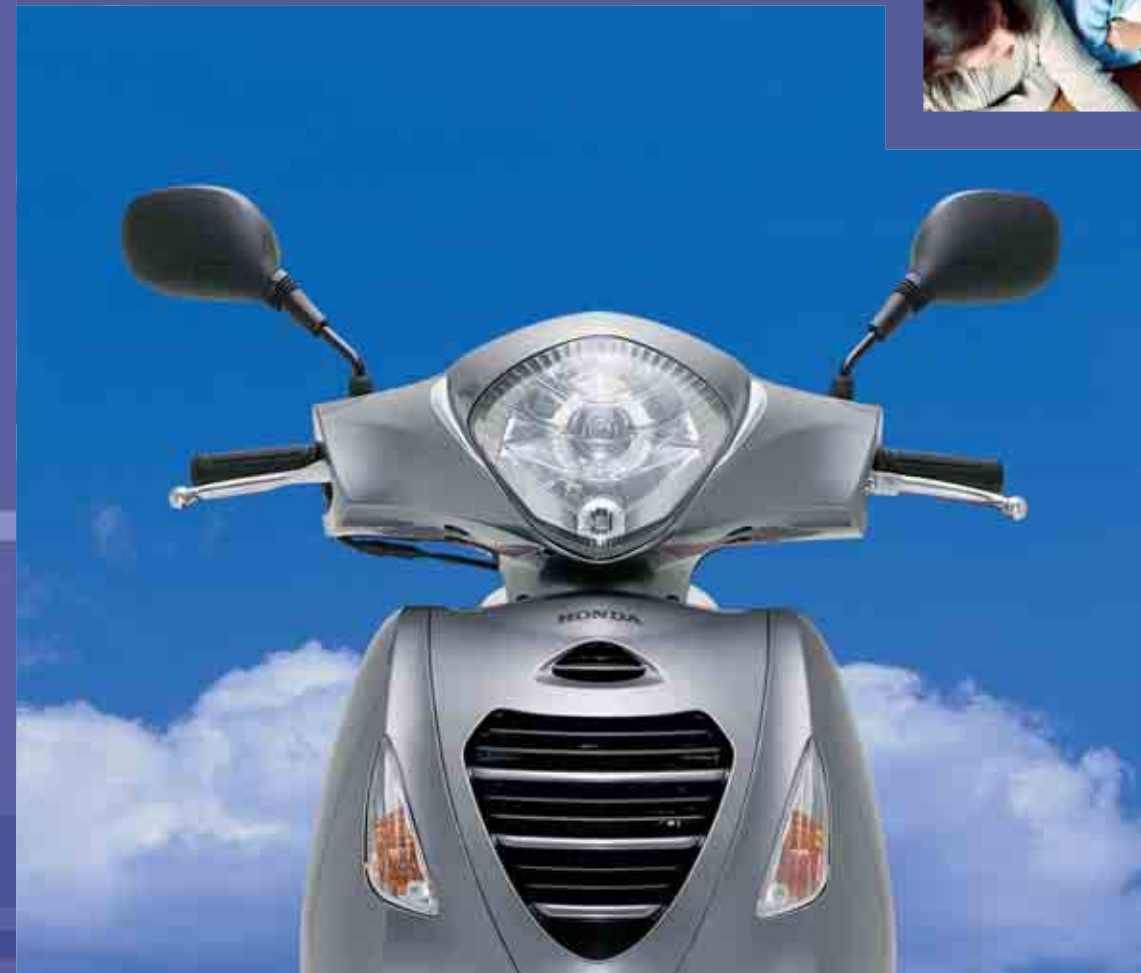

With Honda's unique Combined Braking System and ABS, the Silver Wing provides responsive and assured stopping power whatever the weather.

Vast underseat compartments provide ample storage for two people's belongings with room to spare.

Born to Seduce

Do you really think all scooters are the same? Then perhaps you had better take time to discover the new PS125i. Modern, powerful and environmentally friendly, it's the latest in the Honda Scooter range. And it's here to tempt you.

With a timeless look of modern style, the PS125i will appeal to those looking for something out of the ordinary. From its elegantly contoured full-bodied form to its easy step-through seating, wide floorboard and supple seat, the new PS125i offers both the look and feel of solid, reassuring quality infused with fresh and distinctive designed-in originality. Powered by a strong and highly reliable 4-stroke engine that features the latest fully integrated computerised fuel injection system, the PS125i really stands out with its low fuel consumption, and thanks to Honda's advanced HECS3 oxygen-sensing catalyser, it has lowest exhaust emissions in its class. Add in the smoothly responsive Combined Brake system, convenient under-seat storage and easy-riding comfort, and you'll soon realise the PS125i is just right for every occasion.

The Combined Brake System gives unrivalled operating ease and effortless control for assured braking confidence.

Strong, responsive performance from the liquid cooled 4-stroke fuel injected engine delivers all the power required to cut through busy city traffic.

Particularly roomy, the wide flat floor assures easy foot positioning and an effortless slide on and off the seat.

The PS125i's sculped tail is topped by a sturdy cast resin carrying rack with comfortable passenger hand grips.

The attractive louvres of its forward-mounted radiator and large clear-lens indicators, give the PS125i's front façade a sleek look of timeless charm.

Seat shape and height are optimised for a relaxed riding position and superb riding comfort.

A large, integrated tail-light and clear-lens indicator assembly complement the stylish look of the PS125i's sculpted tail.

A useful locking glove compartment further enhances the PS125i's carrying convenience and security.

The new PS125i is sure to grab attention on the streets with attractive colours that accentuate its sporty urban design and friendly light-hearted disposition. And practical features are sure to appeal to daily commuters and the young at heart. There's a handy carrying space hidden under the locking tilt-up seat suitable for a full-face helmet - with room to spare. Up front a recessed locking compartment provides handy storage for gloves and other articles, while a spring-loaded hook will ensure your bags stay in place on the wide floor. And when more storage is needed, the rear carrier will take a specially designed 35 litre top box suitable for another full-face helmet.

The Smart Transporter

The Pantheon 125 cuts a sleek, well groomed shape through the city. Leaving nothing but busy cities and busier admirers behind you.

High on style, low on size, the Pantheon 125 draws on the energy of city life with its sleek, sculpted approach. With the ample acceleration from the fuel injected 125cm³ engine and the dynamic and assured power of Honda's Combined Braking System to stop you on demand, the Pantheon 125's sprightly performance brings the city alive. Sat in the deeply stepped seat with the clear, accessible dashboard laid out in front on you, it soon becomes equally clear that Pantheon is built around you. With large, accessible storage and strong wind coverage, the Pantheon is at home on the way to work as playing away at the weekend.

The fully integrated instrument panel features a clear view of all the riding information you need on the move.

The Combined Braking System provides assured braking across front and rear wheels in a range of road conditions.

Sharp, minimal front cowl design aids wind resistance while the dual headlight illuminates the night ahead.

The beautifully crafted, fully integrated tail light declares your intentions to others, while the rear handle grip provides superior comfort for the passenger.

The Unrelenting Urban Trailer

Taking the sting out of the unrelenting city tailback, the SH125i unlocks the adventure in everyone.

From the fuel injected 125cm³ engine, to the emphatic styling, with just one look at the SH125i you know you're near something special. Fusing classic lines with cutting-edge technology like the Combined Braking System, the SH125i moves fast and handles like a dream through the tightest of spaces - giving you the confidence you need to meet every appointment you make. Featuring supple suspension, coupled with high comfort seating, the SH125i is dedicated to comfort and convenience. And with the cavernous underseat storage and glovebox, you can transport everything from shopping to briefcases effortlessly across town.

Large, bright multi-reflector headlight provides a broad range of confidence-inspiring illumination on even the darkest nights.

Modern and beautifully designed instrument panel provides an easy view of all operating parameters at a glance.

Supple, long-travel dual rear dampers really soak up the bumps for a comfortable ride and confident control.

Lightweight dual-piston calliper front brake combines with rear drum for smooth, responsive braking control at the touch of a single lever.

The Modern Standard

With modern comforts, contemporary styling and a beating heart that loves the backstreets, the Dylan 125 is an exciting partner in city life.

Tired of being sat behind grey, slow moving traffic? Want to live fast and look good on the road? The innovative Dylan 125 may well have all the answers. And more. With its compact, minimal styling, carefree handling and punchy, liquid cooled 125cm³ engine, the road will open up before your eyes. Blink and you'll miss it. Smooth, contoured seating for both rider and passenger makes hours in the saddle disappear instantly while the Dylan 125 packs enough storage to carry all your essentials wherever you're heading. And with a sharp look that defines your style, the Dylan 125 is the contemporary alternative to the city scooter.

The sharp, efficient front disc brake and Combined Braking System offers controlled and stable braking under pressure.

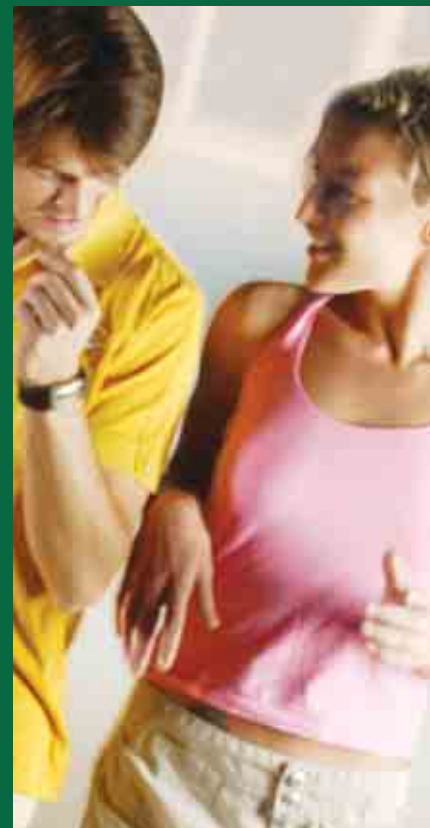

The large, beautifully sculpted instrument panel features a speedometer, fuel gauge, LCD odometer, trip and useful oil change meter.

In keeping with the Dylan 125's pointed look, the rear end features a minimal and efficient passenger hand grip and integrated tail-light.

The Elegant Traveller

Quick, easy and wise to the rigours of city life, the Lead is the perfect accessory in your travels across the city.

Its curvy, sculpted looks and agile frame are only one aspect of the celebrated Lead 100. With its low, duo seat allowing shorter riders easy reach to the ground and the proportioned fairing offering great wind protection, you are left free to enjoy the exhilarating performance from the compact air cooled 100cm³ engine. With large underseat storage hidden from view underneath the compact body, the Lead 100 is more than ready to help you travel. And with ultra comfortable rider and passenger seating giving you hours of hassle free riding, there isn't any part of town you can't explore.

Stylish recessed instrument panel offers easy view of all the information you need during your ride.

Large, integrated headlight and prominent indicators get attention whatever the weather.

The low duo seat allows shorter riders and passengers to ride with ease and confidence.

The Laid Back Fun-Run

With its radical, new age styling and blitzing performance you'll never fail to get noticed on the Zoomer.

Standing out is okay for some people but what if you want to lead the pack? With the Zoomer's carefree styling you prove a point every time you ride. Stripped down to reveal little more than its powerful fuel injected engine and industrial frame, the Zoomer is built for fun, whether in the city or cutting across sun kissed beaches. Adaptability is the key to the Zoomer. With ample open storage space, you can tie whatever you want to the frame. And if security is an issue then you can cover it with extra panels. If you want your life to break from the norm, the Zoomer will be able to take you there.

The simple instrument panel is in keeping with the Zoomer's minimal design.

A locking fuel filler cap, built into the rear floor panel, allows refuelling without having to leave the seat.

The Zoomer's 'open' underseat area leaves room to fix bags or stow luggage. With the seat lifting up to reveal additional access.

The fuel injected, high performance OHC engine delivers great performance and sharp acceleration.

Tailor Your Dreams. Honda Genuine Accessories

To express your individuality and meet your own particular needs, a range of specially designed Genuine Honda Accessories has been researched and stringently tested to the highest standards. And since they're Honda approved, you'll know they're just as tough and well made as your Honda Motorcycle. For details of the complete range available: www.honda-access.com

Leg Deflector Set - This set of dark black tinted side-mounted shields enhances wind protection by deflecting wind and cold away from your feet and legs.

45L Top Box - This large, stylish 45 litre top box can store two full-face helmets and more. Equipped with a key lock and a quick-detach mount, it can be easily carried or left securely mounted on the rear rack.

Tall Windscreen - This 630mm-high windshield complements the scooter's overall styling while providing enhanced wind protection for taller riders.

Body Cover - This water-resistant yet breathable cover protects the Silver Wing 600 ABS's paint and bodywork from the elements while allowing it to dry more efficiently when covered.

Honda Technologies

Driven by the passion that you display when you hit the open road, Honda continues to invest in the development of innovative technologies to meet future global needs. Whether it's meeting stringent environmental regulations or increasing your safety, comfort and convenience, Honda's 'Power of Dreams' has led to some of the most revolutionary engineering around – and is certain to continue to do so. For more information on Honda technology: www.honda-eu.com

Safety

Motorcycle Air Bag - A major step in Honda's quest to revolutionise motorcycle safety, the world's first mass-production air bag system is initially being introduced on the Honda Gold Wing (available in Europe late 2006).

Confident Braking - The development of Honda's unique Combined Brake System along with ABS has redefined braking control on motorcycles.

Rider Training - The Honda Riding Trainer enhances rider safety by giving them the opportunity to experience everyday hazards and riding conditions in a safe environment.

Environment

Commitment to the Environment - Preservation of the world around us for future generations is something we take extremely seriously at Honda. That's why we endeavour to ensure that all our Scooters don't just meet the strict European regulations on emissions, they surpass them.

Fuel Cell Vehicle - Honda has redesigned its light and compact FC Stack fuel cell system to introduce the first innovative, no-emissions scooter.

Electric Moped - The prototype of the electric moped, the Moped-EV, is proving to have everything it takes to provide the market with an environmentally friendly solution.

Hybrid - Honda further tackles environmental concerns with a 50cc hybrid scooter that offers reduced emissions, exceptional fuel economy, and ample storage space.

Technologies

PGM-FI

Programmed Fuel Injection: Map-type computerised system maintains strong power and responsive performance in all conditions.

HECS3

Honda Evolutional Catalysing System: Oxygen-sensing system maintains an optimal air/fuel mixture for the most effective catalytic reduction of exhaust emissions.

CABS

Combined Antilock Brake System: Optimises the balance of front and rear braking control while counteracting tyre slip when braking over variable road conditions.

CBS

Combined Brake System: Actuates both front and rear brakes when the rear brake pedal (or lever) is engaged, for a smooth and confident balance of braking control.

HISS

Honda Ignition Security System: Only allows the bike to be started by its original encoded keys to effectively protect against theft.

EURO-3

EURO-3: Complies with EURO-3 emissions regulations.

EURO-2

EURO-2: Complies with EURO-2 emissions regulations.
