2011 **TOURING**

The specific details of this brochure do not apply to any particular product supplied or offered for sale. Manufacturers reserve the right to vary specifications, including colours, with or without notice at such times in such manner as deemed appropriate. Major as well as minor changes may be involved. Every effort, however, is made to ensure the accuracy of the particulars contained in this brochure. Consult your Dealer for details regarding the specifications of any featured product. This publication shall not constitute - under any circumstances whatsoever - an offer by the Company to any individual. All sales are made by the Distributor or Dealer subject to and with the benefit of the standard Conditions of Sale and Warranty provided by the Distributor or Dealer, copies of which may be obtained upon request. This publicity material conforms to the UK-only Trade Descriptions Act (1968). While efforts are made to ensure specification accuracy, brochures are prepared and printed several months in advance of distribution and consequently cannot always immediately reflect either changes in specification or in some isolated cases the provision of a particular feature. Customers are always advised to discuss specific details with the supplying Dealer, especially if a selection is dependent upon one of the features advertised. Please note that the fuel consumption figures provided are results obtained by Honda under standardised testing conditions prescribed by WMTC. Tests are conducted on a rolling road using a standard version of the vehicle with only one rider and no additional optional equipment. Actual fuel consumption may vary depending on how you ride, how you maintain your vehicle, weather, road conditions, tyre pressure, installation of accessories, cargo, rider and passenger weight, and other factors.

RIDE WITH STYLE Read the owner's manual thoroughly. Get to know your machine and its capabilities. Concentration assists anticipation. Observe other road users' movements. Brake in plenty of time. Wear quality kit, ride fit and NEVER after drinking alcohol. Good roadcraft and courtesy identify the skilled and stylish rider. Honda endorse the law that all helmet visors must comply with BS 4110. Visors that transmit less than 50% of visible light cannot legally be used on the road.

TOURING

GL1800 GOLDWING

LUXURIOUS COMFORT AND CONVENIENCE. IMMENSE POWER AND PRESENCE.

Whatever the season and weather conditions, the Goldwing creates luxurious surroundings for you and your passenger. Its standard cold weather Comfort Package creates new touring possibilities with adjustable heated handlebar grips, individually heated seats and backrests and warm air vents for your feet.

On hot summer days a wind tunnel-tested flow-through ventilation system draws engine heat away from the rider for greatly enhanced riding comfort. Astride the low, ergonomically designed seat, you can plan and monitor your trip with the aid of a large, user-friendly multi-function LCD information screen.

ST1300 PAN-EUROPEAN

SUMPTUOUS COMFORT. SENSATIONAL PERFORMANCE.

Since the Pan-European first took to the roads it has carved a name for itself as the benchmark for touring motorcycles. The commanding ST1300 Pan-European is designed for swift, luxurious travel, whether it's across town or across the continent. It takes mountains and long distances in its stride, setting the standards of comfort and style for all riders who enjoy transcontinental touring.

Optional touring equipment, excellent fuel efficiency, a generous 29-litre tank and comfortable passenger accommodation make it amazingly easy to get out on the road and stay there. Aerodynamically sculpted to cut through the breeze, and with a unique adjustable seat, comfort is assured so you can keep going and going all day long. Want to see the world? What are you waiting for?

NT700V DEAUVILLE

TIRELESS URBAN ALLY. LONG DISTANCE PARTNER.

The Deauville is powered by a responsive fuel-injected 8-valve 680cc liquid-cooled V-twin engine, offering the ideal blend of performance, agility and comfort. The riding position is low and relaxed, the broad seat has plenty of comfortable passenger space and its 5-position adjustable windscreen provides effective weather protection.

Plush, adjustable rear suspension contributes to an enjoyable ride while the Combined ABS brakes provide the ultimate confidence on any road surface. A true all-rounder, the Deauville is one of the most versatile solo or two-up motorcycles on the road today. This is the machine to give you back your freedom.

SPECIFICATION

Engine: Liquid-cooled 4-stroke 8-valve SOHC 52° V-twin

Displacement: 680 cm³

Max. Power Output: 48.3 kW / 8,000 min⁻¹ (95/1/EC)

Max. Torque: 66.2 Nm / 6,500 min⁻¹ (95/1/EC)

Kerb Weight: 257 kg (F: 113 kg; R: 144 kg)

Fuel Tank Capacity: 19.7 litres (incl. 3.5-litre reserve)

Fuel Consumption: 12.5 m/l (56.3 mpg) (WMTC mode)

Seat Height: 805 mm

Ground Clearance: 156 mm

Dimensions (L×W×H): 2,218 × 810 × 1,320 mm
(raised windscreen 1,491mm)

DEAUVILLE

THE POWER OF DREAMS

The first product to bear the Honda name was an auxiliary engine for bicycles. Adding power to the bicycle made life a bit easier for people, and made getting around more fun. Right from the beginning, Honda was about creating things that people truly need – things that had never before existed. This takes independent thinking, audacity and imagination to follow ideas wherever they lead. It also takes determination; the passion, tenacity and innovation to never allow the dream to die, and to shape dreams into products for the world.

To realise this dream as the world prepares for a low-carbon future, Honda is leading the way in addressing the needs of people all over the globe with advanced fuel infrastructure. From bikes to cars, boats to planes, and even to the way we fuel our homes and workplaces, our passion for innovation and our desire to make life better for all just goes from strength to strength.

Honda is proud to be a founding signatory of the European Road Safety Charter. Committed to enhancing the joy of two-wheels and leading the way in road safety.

GLOSSARY

Honda has developed many innovative technologies for its motorcycling range, designed to have the greatest possible benefit for you and the world around you.

Motorcycle Airbag System

The first fully integrated motorcycle airbag system ever featured on a production motorcycle.

Combined Antilock Brake System

Optimises the balance of front and rear braking control while counteracting tyre slip when braking over variable road conditions.

EURO-3

Complies with EURO-3 emissions regulations.

Honda Evolutional Catalysing System

Oxygen-sensing system maintains an optimal air/fuel mixture for the most effective catalytic reduction of exhaust emissions.

Honda Ignition Security System

Only allows the bike to be started by its original encoded keys to effectively protect against theft.

Pro-Link Rear Suspension

Monoshock rear suspension utilises a triangular linkage system to progressively increase damping force through range of rear swingarm movement.

Programmed Fuel Injection

Map-type computerised system maintains strong power and responsive performance in all conditions.

Satellite Navigation System

Honda-installed satellite navigation system with display console and easy-access controls.
