

These specification details do not apply to any particular product which is supplied or offered for sale. The manufacturers reserve the right to vary their specifications, including colours, with or without notice and at such times in such manner as they think fit. Major as well as minor changes may be involved. Every effort, however, is made to ensure the accuracy of the particulars contained in this brochure. This publication shall not constitute in any circumstances whatsoever an offer by the Company to any person. All sales are made by the Distributor or Dealer concerned subject to and with the benefit of the standard Conditions of Sale and Warranty given by the Distributor or Dealer, copies of which may be obtained from him on request. This publicity material applies to the UK only Trade Descriptions Act (1968). Whilst efforts are made to ensure specification accuracy, brochures are prepared and printed several months in advance of distribution and consequently cannot always immediately reflect either changes in specification or in some isolated cases the provision of a particular feature. Customers are always advised to discuss specification details with the supplying Dealer especially if your model selection is dependent upon one of the features advertised.

HONDA

Why should you ride Honda?
Quite simply, because we believe Honda ATVs are the Best On Earth.

Of course, power is an important aspect of an ATV's performance, but what about the way an ATV handles, the way your ATV is built, the attention to fit and finish, or the level of technology? At Honda, we think this is all part of being 'Best On Earth'. It's a philosophy we've had since we built the world's first modern ATV. It's the philosophy that's always set Honda apart, and it's the reason why you'll keep choosing to ride a Honda.

Every Honda ATV also comes with a free safety video to ensure you enjoy using your new ATV to the full.

Utility 2wd

RRP
(excl. VAT)
